

Dear Sir or Madam,

Across the globe, we are in uncharted waters. Almost every hour delivers demotivating messages. Thankfully there are also many stories of acts of humanity to admire. Whatever our view on government responses and how long this current state of global crisis may last, we know it will end. That means that businesses will be trying to fast-track to normality and then get strategically planned opportunities back on track.

You are a business that has looked closely at next steps in Indonesia. Indonesia will still be the fourth largest country in the world. It will again prove itself to be one of the most economically resilient. The opportunities across almost all sectors will again be plentiful. You will want to be well-placed to re-engage.

BritCham Indonesia recognises that you are conserving cash right now and are preoccupied with various forms of crisis management. We have been working on how we can help you in real terms. We would like to offer you practical help to be ready to quickly get Indonesia back on track when the time is right.

Our Overseas Partner Delivery team is offering to conduct bespoke research and any other meaningful service as far as refining your shortlist of match-made contacts ready for when you can press the green button on your market visit. We will do the work now and defer 90% of the fee for a minimum of 3 months and up to 6 months.

As you know, BritCham recommends members for company formation, permits, approvals, registrations, HR and financial outsourcing services. We are pleased to advise that our Business Network Development Partner, **Magna Praxis** is also prepared to be contracted for market access work on the similar basis of 'contract now and pay later'.

If you would like to discuss research or partner search, or deeper market access engagement, please reply to us now to arrange a call. Let's lay the foundations with you now for a faster recovery later.

Best regards,

Marsha Tinambunan
